BALTIMORE—THURSDAY, JUNE 11, 1829.

Scheme of the Next Lottery.

In this day's Register we present the Scheme No. 3, for 1829, of the Maryland STATE LOTTERY.—It is arranged on the ODD AND EVEN SYSTEM, which is continued in consequence of its established and unrivalled popularity. The Scheme is, comparatively, brilliant; and is well adapted for renewals of small prizes of the last scheme, as well as for new investments—Tickets being at *Three Dollars*, and Shares in proportion.

THE VERY SMALL RISK in this Scheme is worthy of remark—there being *no prize less than the price of the tickets*—there being also *more Prizes than Blanks*—and a *certainty of obtaining at least One Prize* in the purchase of two tickets or two shares, and in the same proportion for any greater quantity purchased.—The Capital Prize of FIVE THOUSAND DOLLARS is a brilliant sum in return for the small amount of *Three Dollars*.

Orders should be forwarded without delay, addressed to

J. I. COHEN, Jr. & BROTHERS,
Baltimore.

On our 4th page we continue the List of the drawing of State Lottery, No. 2, which took place last week, with the view that if any failure occurred in the receipt of the last Register, it may be supplied by the present.

DREADFUL EXPLOSION—Blowing up of the Steam Frigate Fulton.

An accident of a most awful and fatal character occurred at the New-York Navy Yard on Thursday evening, by the explosion of the powder magazine of the steam frigate Fulton.

The Fulton has ever since the war, been occupied as a receiving ship, and was moored within two hundred yards of the shore. The magazine was in the bow of the ship, and contained at the time of the explosion, but three barrels of damaged powder. The explosion was not louder than that produced by the discharge of a single cannon; and many persons in the Navy Yard supposed the report to have proceeded from such a source, until they saw the immense column of smoke arising from the vessel. There were attached to the Fulton, by the roll of the ship, 143 persons: and, at the time of the explosion, there were supposed to have been on board the vessel about sixty persons, of whom 32 have been killed! and 22 wounded, many of them severely.

This dreadful accident was occasioned by the Gunner going into the magazine, to procure powder to fire the evening gun. He was charged by one of the officers, previously to his going below, to be careful; and soon after, the explosion took place. We understand that he was a man between 50 and 60 years of age, and had just been appointed to that office.

The Fulton is a complete wreck: the bow being destroyed nearly to the water, and the whole of this immense vessel, whose sides were more than four feet thick, and all other parts of corresponding strength, is now lying an entire heap of ruins, burst asunder in all parts, and aground at the spot where she was moored.

The room in which the officers were dining was situated about midships. The whole company at the table were forced, by the concussion, against the transom, with such violence as to break their

limbs, and otherwise cut and bruise them in a shocking manner.

The magazine was situated in the bows of the vessel. This part of the ship, as may well be imagined, is completely demolished. Indeed the ship remains as complete a wreck as probably was ever beheld.—The timbers throughout appear to have been perfectly rotten. Many of the guns were thrown overboard, and some of them (of large dimensions) now hang as it were by a hair.

It happened fortunately that sixty-two men formerly attached to the frigate, were drafted on Tuesday, and had proceeded to Norfolk to form part of the crew of the frigate Constellation now on the eve of departure for a foreign station. The band, 17 in number, were on shore.

Baltimore and Ohio Rail Road.—A correspondent of the New-York Commercial Advertiser says: Since I last saw you, I have visited most of that portion of the "Chesapeake and Ohio Canal" which has been commenced, and the "Baltimore and Ohio Rail Road." These are important undertakings, and must be, at no distant day, second only to your great Western Canal. The Rail Road is progressing rapidly; and, although some hundreds of workmen are now advertised for, it appeared to me that as many are now engaged as can work to advantage. The first ten miles from Baltimore is a perfect level, and was to have been completed by the 4th of July next. It will not, however, be ready on that day. In making a rail road there is an advantage over that of digging a canal, in the removal of the earth, &c. in deep cuts. As soon as a small portion of the road is completed, carriages are immediately put in operation, which remove the earth to that spot where it is wanted. The immense weight drawn in wagons, by one horse, I dare not mention—it would appear incredible to those who have never seen a rail road in operation.

Latest from England.

The ship Mentor, Webb, has arrived at N. York from Liverpool, bringing London papers to the 8th and Liverpool to the 9th May inclusive.

Parliament resumed their sittings on the 28th of April. The Duke of Norfolk, Lords Clifford and Dormer, (Catholics) took their seats in the House of Lords as Peers of the Realm. After taking the oaths, these long excluded Peers shook hands with the Lord Chancellor, but were not introduced, as is the usual custom with newly created Peers. Subsequently, however, they received the congratulations of many noble and distinguished Peers—amongst whom were the Dukes of Sussex, Leinster, Earls Grey, Fitzwilliam, &c.—They have thus resumed, if in their person it can be called resumption, the hereditary seats of their illustrious ancestors, which no Catholic had been suffered to occupy for 148 years. This is the first overt operation of the Catholic Relief Bill.

Mr. O'Connell had not yet taken his seat in Parliament.

Westminster Abbey was discovered to be on fire on the 29th of April, but no material injury was done: it was presumed to have been the work of some incendiary.

The riots in the manufacturing districts, have produced the consequences that were to be apprehended. Blood was shed.—Five men have been killed at Rochdale, and about 25 wounded. For some time past, there had been much discontent on the part of the persons employed in the woollen and flannel manufacture against some of the masters who pay lower wages than others. The workmen destroyed the looms and shuttles, &c. so that persons inclined to work would be unable. A riot en-

sued. The military were called out.—23 of the rioters were arrested, and 16 of them were committed to Lancaster. A large mob assembled before the prison for the purpose of liberating them.—They attacked the soldiers with stones and wounded one of them. A party of cavalry arrived, who fired on the mob, killed 5, and wounded 25.

The dragoons are ordered to march to-morrow from Birmingham to Leeds.

Hopes are entertained that the differences between the masters and men at Spitalfields will be adjusted.

The Plymouth Herald says: it is confidently reported, that the government of Great Britain, joined by that of France and Austria, will inform Russia that they will not remain silent spectators, and see Turkey become a conquered country. If Russia still persevere, it is more than probable that a higher tone will be used, and perhaps the torch of war, lit in the East, may spread its flames throughout Europe.

American Stocks, May 2.—Five per cents. of 1832, 91. New-York Canal Fives of 1845, 94½. Pennsylvania Fives of 1830, 92½. Louisiana Bonds 96½ a 97. Bank Shares £25 5s.

LIVERPOOL, May 9.—The import of Cotton, this week, is 15,485 bags—Sales 11,940 bags—including 5,460 Bowed, at 5 to 6d; 1780 Orleans, 5 to 7½—1150 Alabamas, 4½ to 6d; and 100 Sea Isl.

1300 bls. Tar have been sold at 10s. 3d. and 600 bls. Turpentine at 9s. to 10s. 7½.

American Flour, Indian Corn, Peas, and Beans are a shade higher, and in rather better demand.—Am. sweet Flour 37 to 38s. Indian Corn 31 to 35. The aggregate average of the 6 weeks made up at Lond. on the 7th, was Wheat 69s 10d—Duty 15s 8d.

Miscellaneous Items.

Summer Arrangement.—The Stages have commenced running from Baltimore to Cincinnati in six days, and from Cincinnati to Baltimore in the same length of time. They will arrive at Wheeling from each place in three days, passing through in the night.

Mr Jefferson's Works.—From the Richmond Enquirer we learn that two of the volumes of Mr. Jefferson's works are printed, and the third is now in the press. None will be circulated before the four volumes are completed.

The Milledgeville (Geo.) Statesman, of the 23d instant, states that the amount of notes received for discount at the Central Bank at that place, considerably exceeds eight hundred thousand dollars. It is therefore supposed, that there will be an enormous amount of notes offered on the 16th day of June, the day on which it is understood the Bank will commence business.

Raising the Wind.—A genteel-looking man purchased of a confectioner 130 tarts, for which he paid, and ordered them to be sent to his house, (giving his address) at a certain hour in the evening. Our gentleman then steps into a jeweller, next door, and after looking at various articles, agrees to take a diamond ring, valued at 60 dolls. Unfortunately, however, he has forgotten his purse, and he has not enough money to pay for the ring. He tells the jeweller that one of his neighbours knows him, and he will be responsible for him. He then steps out, and returns in a few moments with the confectioner, to whom he says, in the presence of the jeweller, "You will oblige me by giving to this person sixty out of the one hundred and thirty which you were to bring to my house this evening." He then walked off with the ring, and at eight o'clock precisely the jeweller received sixty tarts from his neighbour, the confectioner.

14000 Tickets, amounting to.....32,200 DOLLARS.

All Prizes payable in CASH, subject to a deduction of fifteen per cent.

MODE OF DRAWING—The numbers will be put into one wheel as usual—and in the other wheel will be put the prizes above the denomination of Three Dollars, and the drawing to progress in the usual manner. The 7,000 prizes of \$3 will be awarded to the Odd or Even Numbers of the Lottery, (as the case may be) dependent on the drawing of the Capital Prize of Five Thousand Dollars—That is to say, if the 5,000 dollar prize should come out to an Odd Number, then every Odd Number in the Scheme will be entitled to a Three Dollar Prize; if it 5,000 dollar prize should come out to an Even Number, then all the Even Numbers in the Scheme will be each entitled to a prize of 3 dollars.

Odd Numbers end with 1, 3, 5, 7 or 9.—Even Numbers end with 2, 4, 6, 8 or 0.

This mode of drawing not only permits the whole Lottery to be completed IN ONE DRAWING, but has the great advantage of distributing the small prizes regularly to every alternate number in the Scheme, so that the holder of two Tickets, or two Shares of Tickets, (one Odd and one Even Number,) will be certain of obtaining at least one prize, and in the same ratio for any greater quantity. A Ticket drawing a superior prize in this Scheme is not restricted from drawing an inferior one also—many tickets, therefore, will necessarily obtain TWO PRIZES EACH!

PRICE OF TICKETS:

Whole Tickets \$3—Halves \$1.50—Quarters 75 cts.

To be had in the greatest variety of Numbers, (Odd and Even,) at
